SUPERINTENDENT'S REPORT

To the School Board of Effingham:

I herewith submit my sixth annual report, it being the thirteenth in the series of such reports.

Effingham should be proud that last year its schools took first place in the supervisory district in health and good attendance. The teachers of Effingham stood first in the amount of professional reading.

For the year ending June 30, 1931, our schools had an average attendance of 48.7, an average membership of 50 and a percent of attendance of 96.7. This shows fewer pupils in the schools but better attendance.

The health work is now in charge of Miss Ruth Langille, as school nurse. The usual dental clinic was held with good results. The liberal aid of the local Red Cross is much appreciated. Individual cases have received treatment. Special attention has been given to cases of defective vision. Parents should see that children entering next fall are vaccinated. Cooperation of home with school is especially sought in establishing health habits that will insure sound bodies for future adult citizens.

It is especially important that ideals of temperance and world peace should be established in young minds and hearts.

Last June five pupils graduated from the eighth grade and four entered high school. This is an excellent record. It is encouraging to know boys and girls are seeking a higher education. More of those who attend high school should go on to college or normal school. At present there is not one young person from Effingham in the more advanced schools. In this respect your town takes last place in the supervisory district.

Effingham should again be congratulated on the

excellent condition of its school property. The school board's policy of keeping up with repairs is to be highly commended.

During the last season, the inside of the Falls building was redressed and the roof shingled. At the Mountain the ceiling was improved and the yard graded. At the Center, the inside of the room was redressed. At the South a well of good water was provided.

During the coming year I recommend electric lights in all the buildings. Each school should be provided with a screen door. The Mountain needs adjustable seats and desks.
